

CENTRAL ASIA

Nexus Dialogue Workshop

Istanbul, Turkey, 15-17 July 2014

CENTRAL ASIA

Nexus Dialogue Workshop

Nexus Dialogue Process

Targets for 2030

Defining problems

Brainstorming solutions

Action Plan - Mobilising solutions

Investment Grade Proposal

Defining problems

- Write on post-it note hexagons, current and future problems in and between the water, energy and food sectors
- Problems are identified at the interface of:
 - Water-food → Water is needed to grow food; Food transports (virtual) water
 - Food-energy → Food can be used to produce energy; Energy is needed to produce food
 - Energy-water → Water is needed to generate energy; Energy is needed to supply water
- Consider **policy, economic, social, technical, legal and environmental** problems
- **Examples:** Reduced water quality, Reduced flows for agriculture downstream, Increased energy demand but unreliable delivery

Defining problems

	Policy	Economic	Social	Technical	Legal	Environmental
Water-food						
Food-energy						
Energy-water
